## ABOUT OUR OFFICE ...

Thank you for trusting us with the dental care of your child. It is the highest compliment we can receive, and we appreciate it. We will render all treatment for your child to the best of our ability and in compliance with accepted procedures in the practice of pediatric dentistry.

Because your child is a minor, it is necessary that we have your specific consent for treatment. For this reason, we ask that a legal guardian accompany your child to each office visit and **remain in our office** for the entire visit.

When your child is under our care we must devote all of our attention to him/her. It is our experience that children are more cooperative and independent when their parents are not present. To provide your child with the best possible dental experience you are respectfully requested to remain in the reception area during dental care. However, special circumstances may necessitate that parents be present for treatment.

To reduce the ever increasing cost of billing, we request that payment be made on the day that services are rendered. For your convenience, we accept Visa, MasterCard and Discover. In addition, extended payment options are available through CareCredit.

Dental insurance is a contract between you, your employer, and your insurance carrier. It must be stressed that our office is not involved in this agreement. Filing of insurance claims is a courtesy that we extend to our patients; however all charges are your responsibility from the date services are rendered.

Your child's appointment is a special reservation of staff, time and equipment. Broken appointments deny other patients timely care. If you must cancel an appointment, please give us at least 48 (business day) hours notice so another child may utilize this time.

We value the trust you have placed in us and will gladly accept the referral of those you believe could benefit from our professional services.

Timothy A. Glomb, DMD
